

# We Are Re-Opening on June 5, 2020!

Maritime Physiotherapy is pleased to announce that we will be re-opening our doors to in-person treatments starting June 5, 2020. To ensure the safety and health of all patients and staff we have made some changes which will become our **New Normal**.

## **Virtual Care**

Virtual care (telehealth) will still be available to those who would prefer to be treated in the comfort of their own home, thus limiting any exposure to the general public.

## **Screening**

- All patients and staff will be required to complete the provincial Covid-19 screening assessment tool prior to coming into the clinic each time.
- If anyone answers yes to one or more of the questions then we will ask that you not come into the clinic and contact 811 for guidance.
- If you feel unwell, please call and reschedule your appointment.

## **Workspace Adjustments**

- Plexiglass screen guards have been installed at the reception desk.
- Clinic waiting and treatment areas have been rearranged to meet physical distancing guidelines and floor markers have been placed throughout the clinic to help streamline traffic flow and remind people of proper distancing.
- You will be asked to remain in your vehicle when you arrive until called to come in.
- Fewer patients will be booked per day with more time between to disinfect.

## **Cleaning and Disinfection**

- Hand washing and sanitizer stations will be available throughout the clinic and staff and patients will be encouraged to follow provincial hand hygiene & sneeze/cough etiquette guidelines
- All treatment tables, furniture & equipment will be sanitized after each use.
- High touch areas will be cleaned at least twice daily.
- The clinic will be thoroughly cleaned daily.

## **Personal Protection Equipment (PPE)**

- All patients will be required to wear a face mask while in the clinic. If you don't have one of your own one will be supplied to you by the clinic.
- All clinical staff will be wearing a medical grade face mask at all times and non-clinical staff will wear a mask when dealing directly with the public.

**We look forward to seeing you in our New Normal environment!**
